DEAN'S MESSAGE

Follow the soul. Prayer inspire us. Silence excites us for an inner journey. Architecture has always been an incarnation of our internalization, manifestation of our spatial experience, which we want to explore. We are blessed to be the architecture students as well as passionate design enthusiasts.

BETTER LIVING

Mentor : Ar. Akash Puthuparambil

Today the idea of rural development has gained greater sensitivity in India than in the earlier period of the development process of the country.

This responsibility to achieve an enhanced rural production, greater socio-economic equity, and aspiration that balances social and economic development will be shared by Architects of tomorrow. And it is important that they are made aware of this responsibility.

DAYLIGHT & ARTIFICIAL LIGHTING ANALYSIS

Mentor : Ar. Chethan Tippa

Artificial lighting uses around 30-40% of energy use in a residential building & around 60% in a commercial building. Optimum daylight is required to reduce the energy use of a building and the dependence on fossil fuels especially coal.

LOCAL STORIES

AVANI

The Ramalingeshwara group of temples (also spelt Ramalingeshvara or Ramalingesvara and sometimes referred to as Rameshvara group), situated in Avani town of the Kolar district, Karnataka state, India, is constructed in the dravida style. According to the Archaeological Survey of India (ASI), the temple is an ornate 10th-century Nolamba dynasty construction which was partially renovated later by the Chola dynasty. The temple is protected by the Archaeological Survey of India as a monument of national importance.

INTERSHIP NEWS

GLOBAL VOLUNTEER EXCHANGE

Its weird how some of the best experiences in life can start with a simple conversation. that's exactly how my experience in Egypt had started.

My global volunteer exchange was my first solo trip with group of people who were strangers to me but later became my family. aiesec was not only such an opportunity but also brought me out of my comfort zone. I've learnt a lot professionally as well. I got to meet so many architects and exchanged our ideas and experiences.

Egypt isnt only about pyramids and Nile. it's a place where people have a heart of gold. in just 6 weeks i learnt a lot about the importance of developing meaningful relationships and dealing with challenging situations. experiencing so many different people, cultures. doing things that i always wanted to do running, trying swimming, seeing the world from the top, snorkling, going into the depths of the ocean. i myself don't believe i did it all. this exchange served me an experience which a tourist wont ever get. it made me a traveller. we travel to enjoy the place but my exchange gave me an opportunity to live in that place. aiesec made me what i always wanted to be. not a tourist but a traveller.

> How do you feel working in an Architecture firm?

So long, it has been a great feeling working in an architectural firm which handles multiple projects. The environment and the work atmosphere is vital here. It's been a good journey till date.

> Share something about OBAAT.

Studio OBAAT is a multi disciplinary architectural firm which currently is dealing with multiple residence, interior design and decor of all scales from a small retail to big size restaurants. Commercial spaces, renovations, resorts to name a few.

The work atmosphere here at the studio is a homely and nice. Everyone respects everyone and everyone takes care of each other. The seniors here taught me a lot of things about work and profession. I personally have got a lot of opportunities to showcase what I am to what I could be in the future. The studio has also encouraged my interests as well. It's a great place to learn and understand the profession.

> What would you like to tell BGSSAP? (juniors/ or whole college)

I would like to request all my juniors to study well and understand every topic from the syllabus. Because what we learn in college will actually decide what we are capable of doing or executing.

Would also like to add up that time management, risk management and health management is very important for youngsters like us who shift from one phase to another.

It will definitely be a great journey to all of us and all of you to go get out and get a professional training under a principle architect in an office environment.

Learning everyday an improvising everyday in our lives is what I've learnt at my office Studio OBAAT.

Hope everyone gets a chance learn more and more.

SCHOOL BELL - ROTARACT CLUB

Rotaract club of BGSSAP is proud to share the story of success of MAJOR PROJECT.
#school_bell

The project initiated to refurbish four vilages of Kanakpura in three days with fifty five colunteers. The event was held from the Twentieth September, 2019. The event included sketching and painting on walls of the Govt. schools in order to beautify and provide a better environment for the childern.

The project not only included beautify and provide a better environment for the childern.

the project was sponsored by the organization "campus 2 Community".Th e project was done on account of the upcoming 150th Gandhi Jayanthi

The projet not only included beautifying the govt schools, but also gave a rural expo- sure to all the participants.

The praticipants stayed in typical rural houses for 2 nights wherein they interacted with the rural people and experienced their lifestyle as well . the club also had walk on " No Plastic Campain" in the villahe.

The valedictory function was organised by the villagers in front of one of the govt school in the street, in which many neighbours and school children gathered. We were overwhelmed for the kind of love, support and respect of the villagers showed. They honoured us a form of gesture to show their love to us. It was indeed a proud moment for all of us.
